TO THE DEMOCRACY OF INDIANA! Support Your Home Paper.

The organization of the Democratic party in this State can only be maintained, and its future success secured, through the influence of a vigilant and effective press. The Republicans, by deception and the advocacy of sectional policy, have obtained possession of the Government and all the avenues to public patronage, which they are now using for the purpose of curtailing the liberties of the people and establishing themselves permanently in power. To the Democracy of the country, and to the people whose constitutional rights are invaded and imperiled, we can only look for support. This aid should come at once, from the prominent members of our party and from the honest masses whose interests are interwoven with our form of government, as handed down to us by the patriots of the revolution, and which we are now battling to uphold. To enable us to contend successfully, let ino uphold. To enable us to contend successfully, let in formation of the designs of the party now in power, circulate in every neighborhood throughout our borders, and let the Democratic Press everywhere speak with one toice, in facor of the Constitution as interpreted by our fathers, and it will not be long before the Republican party will be driven into merited obscurity, and the Gov-ernment once more placed in the hands of those who are capable of administering it with justice, impartiality and for the common interests of all sections.

We should have at least 200 subscribers in every county in the State, and we can have, if the leading members of in the State, and we can have, it the leading members of the party, in each county, will go energetically to work among the people and see that this list is made up. R must be done, if you expect your State proper to be published without loss to the publishers through these hard times. At the meetings to select delegates to the next State Convention, we ask that an energetic committee be appointed for each township, who will at once ike it their business to see every Democrat in their tounship and arge upon them to take the paper. No Democrat can defend his principles unless he ids those papers that advocate them; and the future suc cess of the party depends largely on every Democrat being \$5 to@5 90 for shipp fully informed of the current political history of the country. Induce the people to read and contribute to the supclosing dull and heavy. port of your party papers, and all will yet be right.

Thanksgiving Day. PROCLAMATION Booliency, Oliver P. Morton, Presence of the State of Indiana.

To The People of Indiana:

Thursday, the 23th day of November, 1861, is hereby appointed a day of Thanksgiving and Prayer, and the people of the State of Indiana are earnestly requested on that day to lay aside their ordinary pursuits and assemble in their respective churches and at their family altars, and return thanks to Almighty God for the bountiful blessings he has bestowed upon them during the past year. Let them pray that our national troubles may pass away; that the Union may be restored and our Government preserved; that our armies may be victorious in the field and our soldlers preserved from death, and safely returned to their families and friends; that the people of the seceding States may be restored to their right minds and awakened to a sense of the awful crime they are committing and be held at the Court-house, in this city, on Saturday,
December 7, commencing at 11 o'clock A. M., to select the fearful consequences they are seeking to entail upon themselves and their posterity.

Is TESTIMONY WHEREOF, I hereunto set my band and affixed the seal of the State, this 8th day of [L. S.] November, 1861 OLIVER P. MORTON. Governor of the State of Indiana. Wm. A. Prezine, Secretary of State.

The number of offerings is about 1,800 head less than last reported, and drovers expected a very strong market at higher prices, but in this they were disappointed. In some instances bet-ter rates have been realized, but as a whole the market has been but little better for drovers than that a week ago. The quantity of beef consumed at this season of the year is less when so much pork and poultry is offering, and this present week the butchers held a good supply of beef which they had bought last week, consequently sales dragged, and it was a difficult matter for the drovers to obtain an advance. A few lots averaged \$8 per cwt., but \$7 25@7 50 was a more common rate. The choicest selections from the best droves brought only \$8 50. The market closes heavily, Wednesday being the worst for the drover, and the cattle were not all sold when

Scrofula, or King's Evil disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to chil-dren unto the third and fourth generation;" indeed it seems to be the rod of Him who says: "I will

visit the iniquities of the fathers upon their chil-Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which cimates the human family has its origin directly in this scrofulous contamination; and many de structive diseases of the liver, kidneys, brain, and indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous, their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine

AYER'S Compound Extract of Sarsaparilla, prevailing fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of the foul disorder from the blood, and the rescue of the system from its de-structive consequences. Hence it should be em-employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Eruptive and Skin Diseases, St. Anthony's Fire, Rose, Erysipelas, Pimples, Pustales, Blotches, Blains and Boils, Tumors, Tetter and Salt Rheum, Scald Head, Ringworm, Rheumatism, Syphilitic and Mecurial Diseases, Dropsy, Dyspepsia, Debility, and, indeed, all Complaints arising from Vitiated or Impure Blood. The popular belief in "impurity of the blood" is founded in truth, for Scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impos

sible in contaminated constitutions AYER'S Ague Cure,

FOR THE SPEEDY CURE OF Intermittent Fever or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bil-llons Headache, and Billious Fevers, indeed for the whole class of diseases originating in Biliary derangement, caused by the Malaria of Miasmatic Countries.

Containing Thirty Fine Plates and Engravings of the Anatomy and Physiology of the Sexual Organs in a state of Health and Disease.

ON A NEW METHOD OF treating Veneral Diseases, including Syphilis in all its stages; Gonorrhea, Gleet, Stricture, Varicocile, and Hydrocele, Diseases of the Kidneys, Bladder &c., without mercuryl containing a valuable treatise on that wide-spread malady of youth, Seminal Weakness, Nocturnal Emissions, Sexual Debility, Impotency, &c., the secret infirmities of youth and maturity arising from the baneful districts, where Fever and Ague prevails, everybady; and other interesting matter of the utspace.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the misasmatic poison of Fever and Ague from the system, and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of everybody; and in billious districts, where Fever and Ague prevails, everybody should have it and use it freely both for cure and protection. A great superiority of this We are enabled here to offer the community a habit of self-abuse. To which is added observations on Female Diseases, and other interesting matter of the utmost importance to the married and those contemplating marriage, who entertain doubts of their physical ability to enter that state. Sent to any address in a sealed wrapper, on receipt of ten cents or four stamps.

We devote our entire time and attention to the treatment of the various private diseases treated of in our private report. Our Dispensary is the only institution of the kind in America which has been e tablished by a special charter, and this fact should give it a preference over the various quacks of doubtful character to be found in all arge cities.

body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the appearance of intermittents, is that it contains no Quinia. or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disease.

of the miasmatic poison.
